Boundary Mic

FEATURES

- Award winning design
- Optimized for speech
- Sturdy housing
- Made in Germany

The sturdy on-table boundary layer microphone **MEB 114** constitutes an improvement for any conferencing system. In its -S version it additionally features a programmable microphone button (PTT, PTM, toggle on/off, permanent on), and a bi-color LED ring for status indication. A camera or media control system can be triggered via the TTL logic out on the bottom side. Thanks to its rugged housing and its high-quality microphone capsule the MEB 114 ensures the best speech intelligibility.
